## BRITAIN THREATENS WAR ON IRELAND

### SIX MILLION PEOPLE ARE STARVING

#### WARNING SOUNDED IN PARLIAMENT

### THOUSANDS DYING ALONG ROADS

Famine Situation in China Described by Writer

### CANNIBALISM IS PRACTICED

Girls Given Away, Boys Sold for 25 Cents

SHANGHAI, China.—(Associated Press)—Six million people out of a population of twenty-seven million in the province of Hunan, are starving and hundreds of thousands are certain to die before midsummer, according to estimates of mission workers there.

Literally thousands have fallen, never to rise, in the fields and by the roadsides. The bodies of the dead are stripped by the emaciated survivors and the pitiful rags that clothed the corpses sold for the few brass coins they may bring with which to buy a handful of rice.

One missionary of the Augustinian order writing from Yuanchow, said: "This afternoon I called upon a once prosperous family and found them eating. Each had a bowl of boiled grass and in each bowl were a few grains of rice. The rice in all the bowls of the entire family would not fill a tablespoon. It breaks my heart to see these people dying with no possible help as the funds we have received are sufficient only to aid a very limited number."

"In one part of the famine belt, the last dreadful resort of the starving, cannibalism is being practiced, according to Ma Ling Yi, former minister of education at Peking. "Girl children are being given away on the mere promise that they will be fed, and boys are sold at from twenty to thirty cents each."

### BONUS MEASURE ENDORSED

Senate Committee Favorably Reports McCumber Bill

WASHINGTON.—(Associated Press)—The commonly known McCumber bonus plan was ordered favorably reported today by the senate finance committee. The vote was 9 to 1.

The effective date of the bill was changed, however, from next October 1 to January 1, 1923, after Senate action in December, Massachusetts.

The bill provides for the payment of bonus in lieu of all other forms of compensation was defeated by a vote of 8 to 5, the three Democrats—Simons, Walsh and Gerry—voting against it joined by McCumber, Curtis, Watson, Sutherland and LaFollette.

Senator McCumber broke the tie which has excited among the Republican members on the vote to report the McCumber plan which is a bonus bill with some amendments including elimination of the land settlement or reclamation project.

Senators said reclamation was not a sound alibi house leaders and some senate supporters of reclamation have urged that the Smith-Nixey reclamation bill or some similar legislation be attached to the bonus measure.

### REPUBLICANS FAVOR NEW SENATE CLOSURE RULE

WASHINGTON.—Republican senators today committed themselves to the movement designed to bring about amendment of the existing senate rules permitting unlimited debate. By a vote of 32 to 1 the Republican conference decided to draft and press a new closure rule.

Whether the closure effort would succeed was not decided. The prospects, however, were said to be that action on the closure proposal would be postponed to a later date. A committee was appointed to draft the new closure rule and another majority before the senate.

A number of the closure opponents who were absent today have given notice that they would oppose a new closure rule on the senate floor.

**WOMAN IS DROWNED**  
HAMILTON.—Mrs. Emma Ulrich, 33, was drowned in the Miami river while attempting to rescue her daughter who had ventured beyond her depth while bathing. Her daughter was rescued by Ralph Rupp, 15, Park.

### SLAYER OF DETECTIVE IS PLACED ON TRIAL

CINCINNATI.—Noble "Red" Holt, who shot and killed Detective Frank Hueftlein of the Cincinnati police department, two months ago, was placed on trial on the charge of first degree murder, in criminal court, today.

### TOWNS WARNED OF VOLCANO DANGER

Ancient Craters in Hawaii in Violent Eruption

### SLUMBER 82 YEARS, ROUSED

Lava and Smoke Pour From Flaming Pits

HONOLULU, T. H.—(Associated Press)—The usual volcanic activity in the region of Kilueau on the island of Hawaii, which yesterday stirred long dormant craters to fresh activity, continued today to manifest itself in eruptions from other pits in that area. The old craters of Napau and Panau are erupting steam and smoke and emitting a hissing sound as the lava rises against the walls of the pits, burning the vegetation that has grown there in the years since their last activity. The inner walls of the craters today were masses of flame.

**MOLTEN FOUNTAINS**  
Napau and Panau are four and three miles respectively from the old crater of Makaopuhi which yesterday erupted itself from 82 years of slumber in a spectacular outburst. Today the lava flows had broken out in a series of molten fountains from the walls of the crater, nine of which were pouring fiery sprays into the old pit.

The activity of Panau pit is said to resemble the disturbance of 1919, when a stream of lava plunged down the side of the cone three miles to the sea.

The ancient craters of Puuhuluhulu and Alea also show signs of activity, according to Professor Thomas A. Jaggar, director of the United States Volcano Observatory on the island of Hawaii. Although the activity of surrounding craters has lowered the level in the great Kilueau volcano, Professor Jaggar believes this effect will not be permanent.

### WAKING GIVEN

Makaopuhi, one of the series of eleven hitherto dormant pits, has a circumference of about three miles. The country surrounding Makaopuhi is almost uninhabited, but there is a tiny settlement at Panau approximately on the line the lava would take to the sea if the eruption attained great volume. It was not expected the lava would extend to the region of Kalapana, which is the largest native village on the island, and Kauna, another nearby village, but residents of these places have been warned to be alert for such a development.

### BAKER APPOINTED

Former School Teacher Deputy to Sheriff Baxter

J. H. Baker, 430 N. Washington st., will succeed Clarence J. Fraunfelder as deputy sheriff of Allen County, Thursday. Baker was appointed Wednesday by Sheriff Charles Baxter, to serve with the present official, at least until January 1, 1923, when Baxter retires in favor of his successor, to be elected in November.

Baker is by vocation a school teacher, but has had some experience in the line of work he is about to take up.

S. A. Dotson, 626 W. Elm-st., former deputy, who retired after having suffered a fractured leg, was offered the place vacated by Fraunfelder, but decided to continue as a painting contractor.

Fraunfelder retires to devote all his time to his candidacy for the Democratic nomination for sheriff.

### FINED \$25 FOR TAKING BASS IN CLOSED SEASON

R. O. Woodruff, 115 E. Kibby-st., was found guilty of fishing for bass out of season, before Justice of the Peace W. H. Geyton Wednesday and fined \$25 and costs. He promised the court to pay in 30 days.

"If you don't you'll go up for 30," warned Justice Geyton. Woodruff was arrested Memorial Day by F. D. Stewart, game protector.

### MAY NOT RECOVER LIMA BANK LOOT

Secret of Hiding Place Dies With Andrew Kapler

### YEGG REFUSES TO "SQUAWK"

Death Claims Last Member of Jiggs Losteiner Gang

Location of the secret hiding place where the bulk of the loot stolen from the Lima Dime Savings Bank is cached, may never be revealed.

Andrew Kapler, alias "Dutch Hartman," notorious Pittsburgh gunman and bank robber, the last member of the gang, died Wednesday morning in the Canton workhouse. He carried the secret of the hiding place of the money, to the grave, despite efforts of authorities to make him talk.

### GANG WIPE OUT

Bullets of a posse of police and citizens wiped out the entire Jiggs Losteiner gang at Canton, May 4. John Hager Stephens, Glenwood, W. Va., was killed in the fight and Eddie Stephenson, Cleveland gunman, and Tom Saxon, East Liverpool, died later.

Stephenson was the robber who entered the Lima bank two days prior to the fight at Canton and stole \$4,380. The others were waiting outside, according to a confession made by Kapler.

Kapler, confessed that he and the three slain gunmen held up and robbed the First National Bank of Canton, Pa. Kapler on his death bed Wednesday, in halting sentences told how he shot the cashier of the bank.

"Tell us where the Lima bank money is," he was implored. "It can't do you any good now."

**REFUSED TO "SQUAWK"**  
"I'll never squawk," Kapler told the police. "I'm going and the secret goes with me."

Saxon had \$400 which is said to be a part of the Lima loot.

Both Stephenson and Saxon were implicated in the robbery of the Union National Bank, Newcastle, Pa., officers say.

Kapler's passing brings the death toll to five, the four gunmen and Ralph W. Hoffee, a member of the posse. Two others were wounded.

Citizens have subscribed \$10,000 for the widow of Hoffee.

### VISIT WARD HOME

Officials Probe Reported Killing in Residence

WHITE PLAINS, N. Y.—(Associated Press)—Westchester authorities today took official cognizance of a newspaper report that Walter S. Ward, wealthy baker's son, shot Clarence Peters in Ward's home on the night of May 15, and that evidence in the form of a bullet-torn woodwork and possibly bloodstains would be found there.

District Attorney Weeks went into conference with Sheriff Werner, Police Chief Cody of New Rochelle and other officials and later visited Ward's home at New Rochelle.

When Ward surrendered on May 22, his lawyers stated that he had met Peters, who was demanding \$75,000 blackmail by appointment, that he drove with him to Kensior reservoir, and there shot him in self defense.

### "PROPERTY SPECIAL" DUE THURSDAY MORNING BETWEEN 10:15 AND 11

Last minute reports from the "Property Special," a train of 20 heavy-duty locomotives going from Philadelphia to the Pacific coast, state that it will pass thru Lima between 10:15 and 11 a. m. Thursday.

This is several hours earlier than it was expected. The special train will not stop but will move at a very low rate of speed while passing thru the city. It will run over the Pennsylvania Railroad.

### NEWS JOB DEPARTMENT TO PRINT PRIMARY BALLOTS

Bids for printing ballots for the primary election August 8 and for poll books and tally sheets were received Wednesday by the board of elections.

Contract for printing the ballots was let to the Lima News low bidder, and the poll books and tally sheets was awarded to the Columbus Note Book company.

### OUTDONE BY BOBBED HAIR MISS

FRANK H. PUNSHON

### Old Time Criminal Finds Modern Flapper Too Smooth For Him

Chicago (Special)—Frank H. Punshon is 31. He has spent nearly 60 years in various prisons.

Punshon is probably last of the old type "cow" men.

He began his criminal career as a child; was first arrested at the age of 10. Since then he has done any number of "stretches" of varying lengths.

The gold brick game and swindling women were his specialties.

He thought he understood women. "But they've changed," he says.

Fifteen years ago he went to the Illinois penitentiary. When he came out he tried to cheat a bobbed hair miss of today. He offered a fine position in a hotel he said he owned.

In the meantime, could she cash a draft for him? The bobbed hair miss called the police. Now Punshon is in a cell again. At his age it is doubtful if he will outlive his term.

"It's just like done," he says of crime. "Once started, you can't stop."

### PROBE DEFEATED

Action on War Graft Voted Down in House

WASHINGTON.—By a vote of 101 to 20, Representative Woodruff, Michigan, and Johnson, 30th Dakota, Republican, lost out today in a final attempt to force the house to take action on their resolution for an investigation of alleged graft in prosecution of war grantees.

The vote was taken on a motion of Republican Leader Mondell for adjournment until tomorrow.

Woodruff and Johnson demanded the yeas and nays hoping to keep the house in session and compel a vote on the fraud resolution.

The fight for the congressional probe into lax dealings with war defrauders has now apparently been finally beaten down by administrative leaders in the house. Tomorrow Republican leaders intend to call the house rules committee and have it rescind its action in ordering the fraud resolution favorably reported.

The committee voted 6 to 5 in favor of it on May 3 but Chairman Campbell, Kansas, refused to carry out his instructions and report the resolution to the house.

### SEVEN MINERS ARE PLACED ON TRIAL

PARKERSBURG, W. Va.—Charged with having checked non-union miners of the Pittsburgh-West Virginia Coal Company's mine near Wellsburg, seven alleged members of the United Mine Workers of America went on trial before Judge W. E. Baker, in United States district court here today.

The seven prisoners and twenty others who could not be located were indicted for alleged violations of an injunction granted the Pittsburgh-West Virginia Coal Company by the United States district court. The court order restrained union miners from hindering the operation of the company's mine, near Wellsburg.

**PRESBYTERIANS ADJOURN**  
CAMBRIDGE.—After selecting Buffalo as the 1923 convention city, the 64th general assembly of the United Presbyterian church of North America adjourned.

He has spent nearly 60 years in various prisons.

Punshon is probably last of the old type "cow" men.

The bobbed hair miss called the police. Now Punshon is back in a cell again.

### COAL OPERATORS ARE WARNED

Agreement Toward Price Fixing Illegal, Hoover Says

WASHINGTON.—(Associated Press)—Secretary Hoover today assumed the responsibility for fixing a reasonable price on spot coal during the continuance of the present coal strike.

Opening the conference here today of union and non-union operators in the producing fields, Mr. Hoover declared that any agreement between the operators looking toward the fixing of the price of coal, even to the interest of the public, would be illegal, and therefore he asked the individual operators to agree with him upon a reasonable price for coal in their respective districts.

The commerce secretary suggested the immediate appointment of committees representing each producing district to advise with him upon a fair price for coal in respective districts. He also asked that these committees should continue in existence and report to him, after the distribution of a fair price, cases of unfair prices in their districts, and at his request as might be necessary to meet such cases.

Mr. Hoover told the several hundred operators assembled at the meeting that the conference had been called by him at the request of President Harding to consult as to what means might properly be taken to restrain runaway coal prices due to the strike. He explained that the conference was not concerned with wages or other questions but solely to the question of price and distribution of coal now being produced.

Speaking of present conditions throughout the country, he said that production was about 5,000,000 tons a week and consumption between 8,000,000 and 8,500,000, thus necessitating withdrawals from stock amounting to between 3,000,000 and 3,500,000 tons a week. Production will increase slightly as time goes on, he added.

### WOMAN PLEADS NOT GUILTY IN BIGAMY CASE

CINCINNATI.—Mrs. Ida Hardesty, 22, of Hamilton, who was arraigned in the Newport, Ky., police court today, charged with bigamy by Karl George of Hamilton, entered a plea of not guilty and was bound over to the grand jury under bond of \$200. Reule claims that Mrs. Hardesty was the wife of Clem Hardesty when he married her February 27, 1922.

Mrs. Hardesty claims that she met Reule and after a number of drinks did "not remember anything." Reule today testified that Mrs. Hardesty went to his room and later with him to a "hall" where he had secured a divorce from her first husband. He denied that she was under the influence of drugs or liquor at the time he married her.

### INTEREST RATE CUT

WASHINGTON.—Reduction in the rate of interest charged farmers by federal land banks from six percent to five and one-half percent effective tomorrow was announced today by Commissioner Lobdell of the farm loan board.

**DIES OF INJURIES**  
CINCINNATI.—William Geers, 24 assistant cashier of the Guarantee Trust Company, died of injuries received when an automobile in which he was enroute to Indianapolis turned turtle near Cedar Grove, Ind.

### COURT ASKED TO STOP MARRIAGE

Action Taken by Mother of Mathilde McCormick

### QUITS GUARDIANSHIP FIGHT

Trip of Prospective Bride to Europe Halted

CHICAGO.—(Associated Press)—Mrs. Edith Rockefeller McCormick will ask court action to prevent the marriage of her daughter Mathilde to Max Oser, Swiss riding master, in a statement to be presented in court late today.

No objection will be made to the appointment of Harold F. McCormick, divorced husband of Mrs. McCormick, as Mathilde's legal guardian, but protest against the international marriage will be made formally in court.

### GIRL BACK IN CHICAGO

Mathilde McCormick was back in Chicago today to choose finally between her parents. The 17-year-old girl planned to go into probate court where Edith Rockefeller McCormick, her divorced mother last week reopened the guardianship proceedings in which the girl's father, Harold F. McCormick, tentatively was named as guardian.

In the final selection of a guardian today Mathilde has at stake the matter of approval of her contemplated marriage to Oser, Swiss horseman, who was her riding master during her childhood days at Zurich.

In the choice of her father, titular head of the International Harvester Company's millions, Mathilde had tacit approval of her marriage to the Swiss, who is more than twice her age. In selection of her mother, her apparent opposition to the Oser union.

**STORMED AT NEW YORK**  
Mathilde returned to Chicago yesterday from New York where she virtually was halted at the pier in preparation for a voyage to Switzerland in company with Julia Mangold, Oser's former secretary, who had been Mathilde's guest.

The 17-year-old granddaughter of John D. Rockefeller Sr., refused to discuss her romance or the impending guardianship proceedings and took an automobile ride with her father who met her at the train.

From indications it was expected today that Mathilde would cast her lot with her father and permit society to speculate for a while longer whether the betrothal to Oser would culminate in marriage or a break in the engagement thru a convenient denial of consent to the nuptials by Mr. McCormick. The Swiss law requires the consent of parents or guardian for the marriage of a girl of Miss McCormick's age.

Meanwhile from across the Atlantic came rumors that Max was preparing for a speedy trip to America.

It also was hinted today that the court might designate some person other than either of Mathilde's parents as her guardian.

### U. S. DECLINES

Turns Down Allies Invitation to the Hague Parley

WASHINGTON.—(United Press)—The United States has rejected another invitation from the allies to participate in the forthcoming conference of the allies with Russia and Germany at The Hague, it was made known at the state department today.

The allied ambassadors here approached Secretary Hughes informally with the suggestion that this government be represented on the two Hague commissions on the ground that they are to deal with economic subjects in line with the desires of the United States.

One body composed of representatives of all the powers that participated in the Genoa conference, except Germany and Russia, will act as a commission of inquiry into the affairs of those two countries. This will be the preliminary conference. The second commission, with Russia and Germany represented, will debate the Genoa conference policy.

**CHILLICOTHE CHOSEN AS SOLDIER HOSPITAL SITE**  
WASHINGTON.—A \$1,500,000 hospital for rehabilitation of veterans will be established at Chillicothe, Ohio, Director Forbes of the United States veterans bureau, said today. The institution of 500 beds capacity will be located on property now owned by the government, on which the veterans rehabilitation school Number 1 now stands.

Forbes indicated that construction of the hospital will be started immediately. The Chillicothe hospital is the first planned under authority of the \$17,000,000 Langley hospitalization bill, recently passed by congress.

### WARNING SOUNDED IN PARLIAMENT

Crown Will Not Tolerate Republic, Churchill Declares

### MILITARY ACTION PLANNED

Adherence to Free State Treaty is Demanded

LONDON.—(Associated Press)—Secretary Churchill in the course of the debate today following his statement on the Irish situation, reiterated that Great Britain would not tolerate the establishment of a republic in Ireland. He said the British troops remaining in Dublin were militarily secure and were awaiting eventualities.

"In the event a republic is set up," said the colonial secretary, "it is the intention of the British government to hold Dublin as one of the preliminary and essential steps of military operations."

Churchill had asserted in the house of commons that the agreement reached between the political factions in southern Ireland last Saturday strikes directly at the provisions of the Anglo-Irish treaty.

**SERIOUS CONSEQUENCES**  
No one disputed, said the secretary, that the wish of the Irish people was reconciliation which would give Ireland her freedom, her place in the world and the hope of final unity. Up to ten days ago the leaders of the provisional government had appeared to be resolved to march steadily forward thru a free election, and put down, if necessary, by force all armed persons who tried to prevent them.

The agreement reached between Michael Collins, head of the provisional government, and Eamon De Valera, the republican leader, however struck directly at the provisions of the treaty. Mr. Churchill declared.

The consequences of the agreement were very serious, he said, and it seemed probable that the Irish people would not be able to give free expression to their views.

**THEY MUST STAND**  
If Mr. De Valera or any of the others who might be ministers in the Irish government refused to sign the declaration prescribed in the treaty, the secretary continued, "the treaty was broken by the fact and the imperial government resumed such liberty of action—whether in regard to the resumption of the powers which had been transferred or the reoccupation of territory—as it might think appropriate and proportionate to the gravity of the breach."

The imperial government, would not, in any circumstances, agree to deviate from the treaty, either in the strict letter or the honest spirit of the document, Mr. Churchill declared.

"It is almost certain," Mr. Churchill went on, "that the Irish people will not be able to say in an intelligent way whether they accept or reject the treaty offered by Great Britain. A certain number of labor or independent candidates may doubtless secure election but it is difficult to see how the parliament resulting from the election and the government to be based on that parliament after the election can have either representative or democratic quality or authority as it is usually understood."

### YANKS ON GUARD

U. S. Troops Prepare for Trouble at Mexican Border

SAN ANTONIO, Texas.—(Associated Press)—United States troops were placed on guard on the international bridge at Laredo early this morning following rumors of a contemplated attack upon Nuevo Laredo, across the river, by a rebel force.

### CHIEF JUSTICE TAFT TO VISIT ENGLAND

WASHINGTON.—Chief Justice William Howard Taft of the supreme court, will leave this country about the middle of June for England where he will spend several weeks in a survey of the English courts, it was announced today. The tour will be unofficial, Taft said. It is the first time that a chief justice has made such a trip during his term of office.

### LENTZ RE-ELECTED

MARION.—Guy B. Lentz, Newark, was re-elected president of the Ohio branch of the United National Association of Postoffice Clerks at the annual convention here.

### FIREMEN INJURED

TOLEDO.—Six firemen were badly burned about the face and arms while fighting a fire which followed a gas explosion in the Kuhnman potato chip factory.

# MRS. COX WINNER IN CONTEST

Wayne-st Woman Nearest Correct in Counting Freckles

## IS AWARDED FIRST PRIZE

Tickets for Sigma Will Go to Large Number

How close did you come to telling the number of freckles Wesley Barry has?

He has, by actual count, 1825! Below we are listing the winners of the Freckles Contest. Answers poured into the office of the Editor from the very last minute, who regretted very much that each contestant cannot be rewarded for his or her efforts. Certainly it was an effort to count them.

Mrs. C. O. Cox, 1202 W. Wayne-st, came the nearest to the correct number and will receive \$5.00 in cash. Mrs. Cox counted 1823 freckles on the countenance of Wesley, only two of them escaping her notice.

Winners were chosen who came the nearest to having the correct figure, being counted both ways, as above, above the correct answer and below it. Prizes will be mailed out to the winners of the cash prizes; also to those who reside out of the city.

The Freckles Editor requests that those who were awarded the tickets to the Sigma, kindly call at the Lima News office, as soon as possible, where they may be obtained.

Following is the list of winners:

Mrs. C. O. Cox, 1202 W. Wayne-st ..... 1823  
Anna Meyer, 1111 E. 1st ..... 1825  
John Rivers, 418 E. 11th ..... 1820  
Roy Knott, 502 S. Michigan ..... 1820  
Madeline Leung, 703 Audison ..... 1820

### TWO TICKETS EACH TO SIGMA

Ellen B. Gould, 620 N. Collett ..... 1820  
Iris Holman, 405 E. 1st ..... 1819  
Grace Waggoner, 312 E. Third ..... 1819  
Mrs. C. H. Wagner, 211 N. Dear ..... 1823  
Mrs. M. J. Wagner, 211 N. Dear ..... 1823  
Rosa A. Houston, 322 Westwick ..... 1823  
Mrs. Leickert, 713 Jefferson-st ..... 1823  
Leroy Conkle, 520 S. Shawnee ..... 1825  
Miss Evelyn Jantz, 1214 E. Prospect ..... 1825  
Walter Thorne, 110 W. Wayne ..... 1845  
Mrs. Augusta Boehm, 510 Tinkle ..... 1809  
Richard Brown, 771 St. John ..... 1802  
Clarence Fulk, 722 W. Wayne ..... 1802  
Miss Keturah Glover, 522 E. 1st ..... 1802

### ONE TICKET EACH TO SIGMA

Madeline Hutchinson, 12414 Car ..... 1820

# RAIN BOOKED FOR THURSDAY

Jupiter Pluvius, after an absence of several days, is endeavoring to stage a comeback, according to the tenor of the day's weather forecast.

Increasing cloudiness, followed by showers and cooler Thursday and in extreme north portions tonight.

His determination to remain on good behavior, so far as laying off rain is concerned, is in danger of being revised, it appears. However, a little shower won't do any damage; in fact, "it will help growing things."

It was Washington who said: "In time of peace, prepare for war." Brought up to date, it might be said: "In dry weather, prepare for rain."

At any rate, it's wise to take stock of raincoats and shower sticks.

## CITY BUYER SEES PRICE FRAMEUP

Mine Run Coal Being Worked Off During Miner Strike

Persistent rumors that the present coal strike is a "frameup" and for the purpose of permitting the coal producers to work off low grade stocks of coal are being heard.

Only mine run coal of a very low grade is being offered for sale and the prices asked are out of proportion to the value it has had in the past, Harry N. Osgood, city purchasing agent, says.

Representatives of many firms selling material to the city state that their companies are able to get all the coal they want if they are willing to take the low grade product.

It is explained by them that huge stocks of this poorer fuel accumulated during the war and afterward and as long as there was good coal to be had the consumers refused to use it, Osgood says.

Now that no more of the better grade of coal is being mined, the consumers are willing to take the mine run product. This releases the capital which has been tied up in the piles of poor coal, salesmen assert.

Coal producers claim, however, that a coal shortage exists and that a famine will result unless drastic measures are taken. Lima coal dealers are finding it increasingly difficult to get good coal and prices are jumping, Osgood says.

City coal piles are in good shape. Enough fuel has been purchased to supply the city until the first of September at least and more will be bought if satisfactory coal can be obtained, Osgood said.

All of this coal was purchased at a price around \$2 a ton at the mine and is lump coal of high grade. A price of more than \$3 a ton is being asked at the present time for mine run coal, Osgood says.

Failure of the large consumers to slow down operations because of the coal strike gives credence to the belief that the strike is not as important as it would seem, Osgood believes.

## COMPACT BY PILGRIMS PRESENTED TO SCHOOLS BY MRS. FRANK BOONE

Copies of the compact entered into by heads of families who came to the new world in the Mayflower, now hang in Central and South High schools. Presentation of the copies, neatly framed, was made Wednesday afternoon by Mrs. Frank Boone, 1072 W. Market-st, member of the Ohio society, whose membership is with the Cincinnati society.

As the pilgrims were coming over in the Mayflower, they decided the new government must have heads. So they drew up this compact and heads of every family signed it.

Mrs. Boone is a direct descendant of the thirteenth signer, John Holland, and the sixteenth signer, John Kelley. Every city which has a member located therein is privileged to have these copies, in their high schools.

To instruct in patriotic education and encourage a sentiment for the founders of the republic, is the object of installation of the compact in schools, Mrs. Boone says.

## MARRIAGE LICENSES

Gerald Ashford Beniger, 25, salesman, Lorain, and Geraldine C. Graff, 21, stenographer, 318 N. West-st.

William Washington Candler, 35, boiler operator, Toledo, and Mettie Belle Funk, 47, housekeeper, 901 1-2 Reaso-av.

# SCORES EXAMINED IN CHEST TEST

Tuberculosis Experts Hold Clinic at Health Center

## MORE THAN 60 FIRST DAY

State Diagnosticians Here — Open Again Thursday

More than sixty patients are being examined at the diagnostic chest clinic, which opened in the Red Cross Health center, Elm and Elizabeth-sts, Wednesday. The clinic will be continued Thursday, open from 8 a. m. to 3:30 p. m. The state department of health, cooperating with local health authorities and Allen-co Academy of Medicine, is giving this clinic service.

Half of the patients are children. Physicians of Lima and Dr. J. B. Poling, health commissioner, with assistance of the public health nurse, Miss Marie Mueller, Miss Marian Foote, Miss Olive Johnson and Mrs. Helen Geiger, have asked the persons to attend the clinic whom they consider to be most in need of the service.

## BUREAU CHIEF HERE

Dr. J. A. Frank, Columbus, chief of the Bureau of Tuberculosis, has arrived for the clinic. Dr. Charles S. Rockhill, medical director of the Rockhill sanatorium, Cincinnati, and Dr. W. C. Breidenbach, superintendent of the Stillwater Sanatorium, Dayton, are acting as diagnosticians.

Miss Gertrude E. Armstrong, tuberculosis clinic nurse from the state department, is assisting local health authorities.

This is the twenty-first clinic held in Ohio since a legislative appropriation was made last year to prosecute the work. Nearly all of those examined at previous clinics are under some sort of treatment, either at home or elsewhere, as the reports which come in daily from physicians and public health nurses show.

This is resulting in an unusual number of applications to physicians for examinations in communities where clinics have been held. This is really the object of the work—to awaken the people to the importance of combating the disease in a rational manner, it is stated.

"The age-old belief that tubercular patients are doomed, has been discarded," Miss Armstrong, state nurse says. "But it was partly true in the past because the disease was not generally recognized until the patient was in the last stages and then his chances were virtually nothing. Statistics show that 85 per cent of those who have the disease and take treatment in the early stage are alive ten years later, whereas, only 45 per cent of those

not receiving treatment until in the advanced or moderately advanced stage, recover."

**NO TREATMENT GIVEN**  
Doctors called here to diagnose the cases, do not give medicine nor recommend treatment. They fill out blanks, one of which goes to the family physician, one to the health commissioner and the third to the public health nurse.

The state public health department follows up on these cases in reports made at stated times.

Miss Armstrong said efforts would be made to have local health nurses open a nutrition clinic, in which mothers would be taught especially to care for the pre-tuberculous patient, regarding eating, sleeping and all sanitation in his behalf.

## CHEST DIAGNOSTICIANS TO ADDRESS ACADEMY OF MEDICINE HERE TONIGHT

Diagnosticians who are here for the chest clinic at the Health center, Elm and Elizabeth-sts, will be speakers at the monthly meeting of the Allen-co Academy of Medicine, to be held Wednesday evening at Memorial hall.

Dr. J. A. Frank, Columbus, chief of the Bureau of Tuberculosis, will outline the object of the clinic, now being held at the Health center. Dr. Charles S. Rockhill, Cincinnati, and Dr. W. C. Breidenbach, Dayton, both specialists in chest diseases, will conduct a round table.

Nurses, physicians and hospital heads are invited.

## WOMAN'S APPENDIX ON LEFT SIDE, REVEALED BY SURGERY AT HOSPITAL

Discovery was made, during an operation to which Mrs. Clara McClintock 24, 834 S. Elizabeth-st, was subjected at St. Rita's hospital, that her appendix lay upon the left side of the body.

Mrs. McClintock has been suffering much pain for many months. Removal of vital organs was also found to exist, according to surgeons who conducted the operation.

Mrs. McClintock will recover from the operation, according to announcement from the hospital.

## HORSE THIEF RETURNS; EQUINE REPORTED STOLEN

Police have been under the impression for a long time that the horse thief is extinct, but the supposition was rudely jarred Wednesday when a report was received that a sorrel mare with bobbed tail was stolen from Mrs. Doyt Butters, Wapakoneta-rd. She had tethered it in a pasture, police say and the chain and all were taken.

## POLICE SEEK BOYS

Lima police were asked Wednesday to participate in a search for two St. Marys boys, Fred Hitchens, 13, and Frank Goodwin, 16, whom St. Marys authorities say were arrested away by a man named Tom Cole. The man is fleshy, five feet eight inches tall, about 23 years old and wore a dark shirt, overalls and cap when last seen.

SMOKE B. OF R. T. CIGARS.

# WILL TEACH BOYS HOW TO SWIM

Lions Club Takes up Project, Free to Lima Youth

## ROBY TALKS ON TAXATION

Lima Body Raises Own State Convention Fund of \$2,500

"Every Lima Boy a Swimmer!" This is the slogan adopted by the members of the Lions club at their weekly luncheon at the Elks home Wednesday noon.

It is planned by the Lions to make it possible for every Lima boy between the ages of 12 and 18 to obtain free swimming lessons during the week of June 12.

They will be assisted in this work by the physical education department of the Y. M. C. A. The free lessons will be given in the large Y swimming pool.

I. G. Maxwell, director of physical education at the Y, will have charge of the instruction and will be aided by his assistants. Lima Lions will take an active interest in getting the boys signed up and adding in the formation of the classes.

W. S. Shepard, D. W. Harman and V. H. Hay were appointed a committee to prepare the plans for "Swimming Week" and to interest every Lima boy in the project.

Application blanks will be available in a few days and these can be left at the American Bank or at the Y. M. C. A. The lessons will be free of all cost to the boys.

Taxation and the proposed changes to the constitution were explained to the Lions by John W. Roby, chairman of the chamber of commerce committee on taxation.

He explained the need for a change in the Ohio code in order to bring more property on the tax duplicate and to provide more money for municipal governments, with no increase in the rate of taxation.

Walter Wolf, representing the Rehabilitation and Vocational Training committee of the state, spoke to the Lions regarding the investigation now being conducted in Allen-co.

"ALLEN-CO PLAN" GROWS  
Methods devised by the Lima Lions to obtain the names of all persons in need of this training are being studied and adopted throughout the state, Wolf said. It has become known as the Allen-co plan, he said.

A nominating committee consisting of Joel Spyker, M. W. Davis and Fred Morris were appointed to select the officers for the next year. They will report June 14 and the election will be held June 28.

A report of the state Lions convention, held here last week, was received. The financial secretary stated that \$2,500.01 was spent on convention preparations and that this sum had been raised completely within the club.

## VETERAN IN HOSPITAL AS COMRADES OBSERVE MEMORIAL DAY HERE

John Long, 83, Civil war veteran and member of the 128th Indiana infantry, did not get to enjoy Decoration day as he had planned.

Instead of mingling with his comrades in parade, he was confined to St. Rita's hospital. Long enjoyed a visit from his brother, Enos Long and two nephews, all of whom came from their home in Mishawake, Ind., to see him.

He was enroute to spend Decoration with his brother when he suddenly became ill on a B. & O. passenger train near Deshler. He walked to the rear end of the car and fell to the ground.

He was found along the railroad tracks near Deshler and removed to St. Rita's hospital. Surgeons fear he may have sustained a fractured skull. However, he was much improved Wednesday and visited with his brother. His rapid recovery continued Wednesday, according to announcement from the hospital.

## ALUMNI TO ELECT

St. John's Alumni Association will hold a meeting Wednesday evening at the school auditorium. Election of officers will take place and all members are requested to be present.

Ladies—Mme. Stetson will be hostess at the school auditorium. Election of officers will take place and all members are requested to be present.

## LANCASTER CORD and FABRIC TIRES

QUITE a few tires come up to specifications—but don't exceed them. They're the "average run"—and usually worth the money.

And then there are tires produced by manufacturers who know that it is mighty good business to supply *heaping measure*—to furnish merchandise of such outstanding quality that repeat orders follow as a matter of course.

Lancaster Tires are made by men who know that the motoring public appreciates exceptional tire service.

## TRADE LULL MAY BE AVOIDED

Summer Dullness Will be Overcome, Forbes Thinks

### BUSINESS GROWTH GENERAL

Writer Bases Opinion on Favorable Developments

(BY B. C. FORBES)

NEW YORK — (Special) — Will summer dullness be avoided this year?

There are indications, both in the business world and in the security markets, that it will.

Most developments have been favorable during the last week, and faith in the genuineness of the recovery now under way is gradually becoming universal.

In addition to what might be called look-for trade developments, I believe there is a possibility, not to say a probability, that cheerfulness

will be fanned with enthusiasm by certain other developments.

Increased, extra, resumed and initial dividend payments are likely to come to the front before long and continue to be a stimulating influence during the entire second half of the year. Last week brought several minor, yet significant developments of this nature. If this forecast is fulfilled, the effect will be quite pronounced, on both business and securities.

Mergers promise to play quite a part in fostering bullish sentiment, particularly in the stock market. The indications are that we shall see railway mergers, mining mergers, steel mergers, automobile mergers, oil mergers, banking mergers, tobacco mergers, rubber mergers, sugar mergers—indeed, few divisions of activity are likely to be overlooked.

My own opinion is that confidence in the railway outlook will become distinctly greater before long, this too, even should the Railroad Labor Board recommend no general reduction in wages. The wages of one or two groups may be moderately reduced, but that is all it were wise to count upon, at the most. The so-called "10 percent reduction" of last week is in reality nearer a 5 percent reduction, since almost half the total traffic had already been placed under lower rates and the 10 percent reduction does not have to be added to these previous reductions. The probability is that railway traffic will expand sufficiently to take care of

the somewhat lower freight rates and that by fall railway profits will be materially better, with railway credit sufficiently buttressed to permit of necessary borrowing on reasonable terms.

Public interest in the stock market is also likely to contribute towards stimulating sentiment all round. The New York Reserve Bank last week increased its loans on corporate securities \$84,000,000, and there were smaller increases at other centers. Brokers and others find the public eager for "tips," a fact of no slight significance. Since January 1 stock dealings on the New York stock exchange alone have aggregated \$11,000,000,000, an increase of almost 50 percent over a year ago, while bond transactions have totalled \$2,000,000,000, an increase of more than 50 percent. The week was again featured early by a new high level for stocks, while bonds about held their own. From now on activity in stocks is likely to overshadow dealings in bonds.

So much for certain broad phases of the outlook.

What of actual developments? Here are a few: Railway car loadings increased and idle cars decreased. Several automobile companies broke all previous records for production and sales. General Motors reported that its April sales, just missed constituting a new high record for any month in its history, and May is doing still better.

Rather unexpectedly, the local Federal Reserve Bank issued statistics showing that department store sales last month broke all records, a fact not wholly vitiated by the circumstances that Easter was quite late this year.

A quotation of 14 cents for copper was reported at the close of the week.

Crude oil prices advanced. Steel output and orders were declared by leaders in the industry to be surpassing expectations.

Secretary of Labor Davis announced that unemployment has been "practically eliminated" in New York state and gratifyingly reduced all over the country.

July cotton rose to a new high price for the year on broader demand.

Commercial failures decreased. Raw wool became firmer and the American Woolen Company announced higher prices for many of its products.

Sugar was marked up. The lumber industry experienced unusually keen demand, reflecting continuance of the building boom now under way, and which promises to last quite a while.

British, French, and Italian foreign exchanges displayed strength despite the indifferent success of the conference, and the lack of enthusiasm over the coming Hague conference.

Responsible financial interests were greatly encouraged by intima-

tions that a huge loan for Germany may be found feasible. Far greater importance is attached to restoring stability in Germany than in any prospect of doing anything tangible with the impossible Soviets.

The Bank of England's reserve touched a new maximum for the year. Our own bank reserves continue extraordinarily high and a mild flurry in call loans in Wall Street to 5 percent was not regarded as serious.

The unfavorable features of the situation—at Washington and in Europe—are more than offset by the many favorable developments, actual and prospective.

It will be prudent to act on the reasoning that we are moving towards better times.

### H. C. SMITH OPPOSES REORGANIZATION CODE

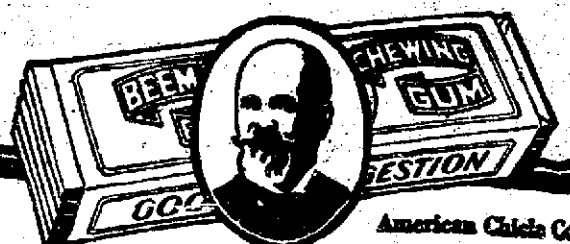

COLUMBUS, — Secretary of State Harvey C. Smith, candidate for Republican nomination for governor, today stood definitely committed against the emergency clause of Governor Davis' reorganization code.

In a letter to State Senator J. F. Burke, Lorain-co, who led opposition in the senate to the reorganization measure, Smith indicated he will make the emergency clause an issue if Davis seeks re-nomination. The letter was in answer to one Burke sent out early in the year to all prospective candidates.

### BRUNER ONION WEEDER

Onion Growers: If you have heavy weeding to do, let me suggest that you try our weeder. They are handled by McGuffey Hardware, and Clay Supply Co., Alger, O.

When the mud dries out a little you can do a good job with the weeder and eliminate two-thirds of your hand weeding expenses. A couple of good hand weeders can follow and get the few weeds the weeder leaves, and a little soil to the onions where too much has been moved by weeder. You can use the hiller provided for drawing soil to row, and not do as much hand work at once. In using hiller be sure that the shoe part is bent so crosswise so it will scrape soil to row instead of cutting in the soil and working properly. One must run the weeder over perhaps two rows before getting on the knack of steering, etc.

These weeders are used all over the country and the method general followed is to eliminate an operation with wheel-hoes. Go into the field with weeders instead and follow with hand weeders. This gets a good job done quickly and far cheaper without possibility of weeds overcoming the crop. Too much work is generally done with wheel-hoes. If you would switch part of this energy into using weeders you would benefit to a great extent.

We have developed a weeder that does the work and would appreciate little more consideration from the growers in Scioto Marsh. Take hold of the machine, men, and when you get well acquainted with them you will not be without them.

# Consumer's Fuel & Building Supply Co. Becomes Lima Dealer for MUELLER CONVECTORS

"For years I have been looking for a better heating system to offer home owners in this city—a heating system that will do as much or more than the manufacturer claims for it—a heating system that will PROVIDE EVERY KNOWN HEATING COMFORT WITH LEAST TROUBLE AND EXPENSE.

"I have found this system in the MUELLER CONVECTOR. Selling at a price well within the means of every home owner, it has advantages not provided by other systems costing many times as much. It is ideally suited to the eighteen room mansion, or the five room bungalow. Wherever it is installed, it is best for the COMFORT, the HEALTH and the POCKET-BOOKS of its owners.

"I am staking my reputation as a local business man on CONVECTOR PERFORMANCE. It is manufactured and installed under supervision of the most skilled heating engineers in the country. It is backed by a \$3,000,000.00 company with a 65 year old reputation for excellent heating systems, AND THIS COMPANY FURNISHES A WRITTEN MONEY-BACK GUARANTEE WITH EACH INSTALLATION."

## Here are the Reasons I Recommend the Convector for Your Home:

- (1) Convector Heating keeps ALL the AIR in your home in slow, constant motion. It ventilates every square foot of every room with warmed, healthfully moistened air. It's splendid health insurance.
- (2) It frees all your rooms of heating apparatus. No wall space occupied by radiators and registers. You can arrange your furnishings as you please. Every room is easily cleaned.
- (3) The Convector is easily operated. Requires little, if any attention, throughout the day.
- (4) It heats evenly. The upstairs bedroom is warmed and ventilated just as well as rooms on the first floor.
- (5) It overcomes the old objection to warm air heating by absolutely eliminating all soot, smoke, coal dust and fuel gas.
- (6) Heats ample supply of water for kitchen and bath.
- (7) Burns any fuel—coal, coke, gas, oils, wood, lignite or screenings.
- (8) Fits any basement—even the smallest—and can be installed in less than one day.
- (9) SAVES 1-3 TO 1.2 ON YOUR FUEL BILL.
- (10) PRICE? It will cost you less than two good cigars a day for one year. But I'm not recommending the Convector because its price is low—I'M RECOMMENDING IT BECAUSE I FIRMLY BELIEVE IT'S THE BEST HEATING SYSTEM MADE FOR HOME HEATING.

I can prove every one of these points to your satisfaction. Let me prove them to you—NOW—before you decide on a heating system!

Yours sincerely,  
G. W. Shanahan

### The Cadillac of Heating Systems

The Mueller Convector does far more than heat your home. It places ventilation ABSOLUTELY UNDER YOUR CONTROL without cold drafts—it actually cleans the air in your home, giving you a far more healthful "Winter Atmosphere." It CONVEYS warm, moistened air to every room in the house through one duplex register without creating drafts. It is the most simple, certain, satisfactory method of home heating ever devised. IT WOULD BE THE LOGICAL SYSTEM IF IT COST MORE THAN OTHER HEATING TYPES—INSTEAD OF LESS!
